Fragrance Sachets
AUSTRALIAN MADE

Sachet is made from compostable materials and sustainably sourced wooden beads

We are excited to offer this innovative **Australian Made** alternative to traditional plastic fragrance sachets. Made using wooden fragrance beads enclosed in a cornstarch-based compostable sachet, they offer **60 days of long-lasting fragrance** and are available in five popular scents, including **New Car, Vanilla, Outdoor Fresh, Cool Ice and Sandalwood.** Compact, affordable and convenient, the sachets are ideal for **cars, homes and offices,** making them a great fit for **cleaning & facility management companies, supermarkets, service stations, car washes, car detailers, car dealers, workshops**, convenience stores and more.
They can be used in **cars, commercial and domestic spaces, including cupboards, drawers, air-conditioning units, vacuum cleaners, rubbish bins, gym bags** and more...
