The XPOWER Airrow Pro B-53 pet dryer is your key to safe/effective pet grooming at home. Featuring over 500 Watts of power and triple the air volume/velocity of human hair dryers, this unit can dry even the densest double coat. Safer for your pet's coat and skin than a standard hair dryer, the Airrow Pro B-53 Pet Dryer will not produce harmful heated air. The 9 included nozzle adapters will allow you to not only save money on grooming costs, but also work throughout your home or office as a versatile electric duster and air pump. This unit's compact design and multifunction adapters make endless uses!

2 Speeds: Hi/Low	1.5 m	Thermal	2.2 kg	Durable ABS

The XPOWER B-55 Home Pet Dryer is your key to saving time and money by getting professional grooming results at home. Featuring over 5x the power and air volume of human hair dryers, the B-55 can efficiently dry dense double coats and is best suited for small to medium breeds. An included DIY Pet Styling Guide provides step by step instructions for grooming your pet. The B-55 generates a safe warm air output that is safer for your pet’s coat and skin than a standard hair dryer.

Featuring a powerful, lightweight, super quiet 2 HP motor with 2 speed controls, you have the flexibility to dry even timid pets with ease. With 3 included nozzle accessories, the B-55 multi-functions as a vacuum for picking up loose pet hair as well as other household tasks like cleaning your car’s interior, dusting hard to reach spaces, and drying a variety of surfaces. Built to last, the XPOWER B-55 pet dryer features the same durable housing as our commercial line of pet dryers and includes 1 year warranty coverage for home use.

The XPOWER B-2 Pro-at-Home Pet Dryer is your key to saving time and money by getting professional grooming results at home. Featuring 5x the power and air volume of human hair dryers, the B-2 can efficiently dry dense double coats on even the largest breeds. Safer for your pet's coat and skin than a standard hair dryer, this pet dryer will not produce harmful hot air.

Featuring a powerful, lightweight, quiet 2 HP motor with 2 speed switch, you have the flexibility to dry even timid pets with ease. With 6 included nozzle accessories, the B-2 multi-functions as a vacuum for picking up loose pet hair as well as other household tasks like cleaning your car's interior, dusting hard to reach spaces, and drying a variety of surfaces. Built to last, the XPOWER B-2 pet dryer features the same durable housing as our commercial line of pet dryers and includes 1 year warranty coverage for home use.

Speed Control	Hose Length	Overheating Protection	Net Weight	Housing
Variable Speed	2.4 m	Thermal	4.0 kg	Durable ABS

SUPER WARM & COMFORTABLE

The XPOWER B-24 Heated Force Dryer gives you the power and heat to dry those pets even faster! The variable speed control along with dual heat settings gives you complete control over the amount of air and temperature you need to dry any dog, small or large with short or long hair. Like all XPOWER dryers, the B-24 is extremely lightweight and up to 40% quieter than most dryers in the market. Its rugged ABS housing makes it super durable and the filter system protects the motor from debris for maximum efficiency. The B-24 is compatible with our wall or stand mount kits letting you put your machine wherever it is most convenient and secure.

Features:

- Remarkably QUIET & LIGHTWEIGHT
- Powerful 1800W motor
- Variable speed settings
- 2 Heat settings
- Durable and rugged ABS housing
- Easy-to-change and washable filters
- 2.4m heavy duty flexible PU hose
- 3 pcs nozzles attachments
- Thermal Protection
- Ideal for professional grooming

B-27 Super Tub Pro Dual Motor Force Pet Dryer

B-27

2500W

Variable Speed Switch

Voltage / Cycles	Power	Amp	Airflow	Cord Length
220-240V / 50Hz	2500 Watts	10.8 A	180 CFM	2 m
Speed Control	Hose Length	Overheating Protection	Net Weight	Housing
Variable Speed	2.4 m	Thermal	5.9 kg	Durable ABS+PC

The B-27 Professional Double Motor Force Dryer is the most powerful dryer you will ever use and was designed to be extremely quiet, lightweight and powerful. With a powerful 6 HP double motor this dryer will dry the thickest coat reducing drying time and increasing income. Unlike other double motor dryers, the B-27 is remarkably quiet, protecting against hearing loss and animal trauma. The variable control switch allows for precise airflow to dry small or large breeds with short or long hair. A highly balanced motor and improved carbon brush design creates at least 40% less noise and increases the motor life of the dryer. It is also made with durable ABS plastics and comes complete with 3 styling nozzles. The protective 3-filter system keeps hair out of the motor keeping your dryer running efficiently. When you need a high powered dryer that can take on any job, the XPOWER B-27 is ideal!

Features:

- Remarkably QUIET & LIGHTWEIGHT
- Powerful dual motor 2500W
- Variable speed settings
- High impact and rugged ABS+PC housing
- Easy-to-change and washable filters
- 2.4m heavy duty flexible PU hose
- 3 pcs nozzles attachments
- Thermal Protection
- Ideal for professional grooming

Can also be used together with the air spring lift stand **B-SMK-3** and directional nozzle **B-SCA** to become a combined movable blaster and dryer to free up your hands.

Wall Mount Kit available separately

B-WMK-2

Wall Mount Kit for Professional Force Dryer (suits B-2/B-4/B-24/B-27 models)

The uniquely designed bracket mounts the unit securely to a wall, freeing up valuable floor and table space. When you are finished using the unit, simply snap the hose and nozzles on the bracket and it's completely out of your way.

Adjustable Dryer Arm Conversion Stand Mount Kit for Professional Force Dryer (suits B-4/B-24/B-27 models)

Features a multiple position tilt capable stand and Stand Conversion Arm (SCA) so that you can replace your dryer's hose and achieve maximum hands-free styling control. Compatible with all XPOWER professional force dryer models, the SMK-3 includes a height adjustable (110cm- 150cm) spring assisted shaft, multiple adjustable dryer caddy positions and expanded base diameter for optimized stability. Uniquely designed to turn the unit into a stand dryer, it rolls smoothly on 5 foldable sturdy legs with lockable castor wheels and features an accessory station which accommodates up to four attachments, providing a neat and secured work station.

B-SMK-3

B-SCA

Stand Conversion Arm (suits B-4/B-24/B-27 models)

The XPOWER Stand Conversion Arm consists of a straight arm and 360° rotatable flexed nozzle. It will give you a "hands free" option when it comes with XPOWER pet dryers. Easily screws on and the non-slip nozzle can be rotated to direct airflow.

B-18 Pet Pro Finisher Stand Dryer with Variable Speed & Heat

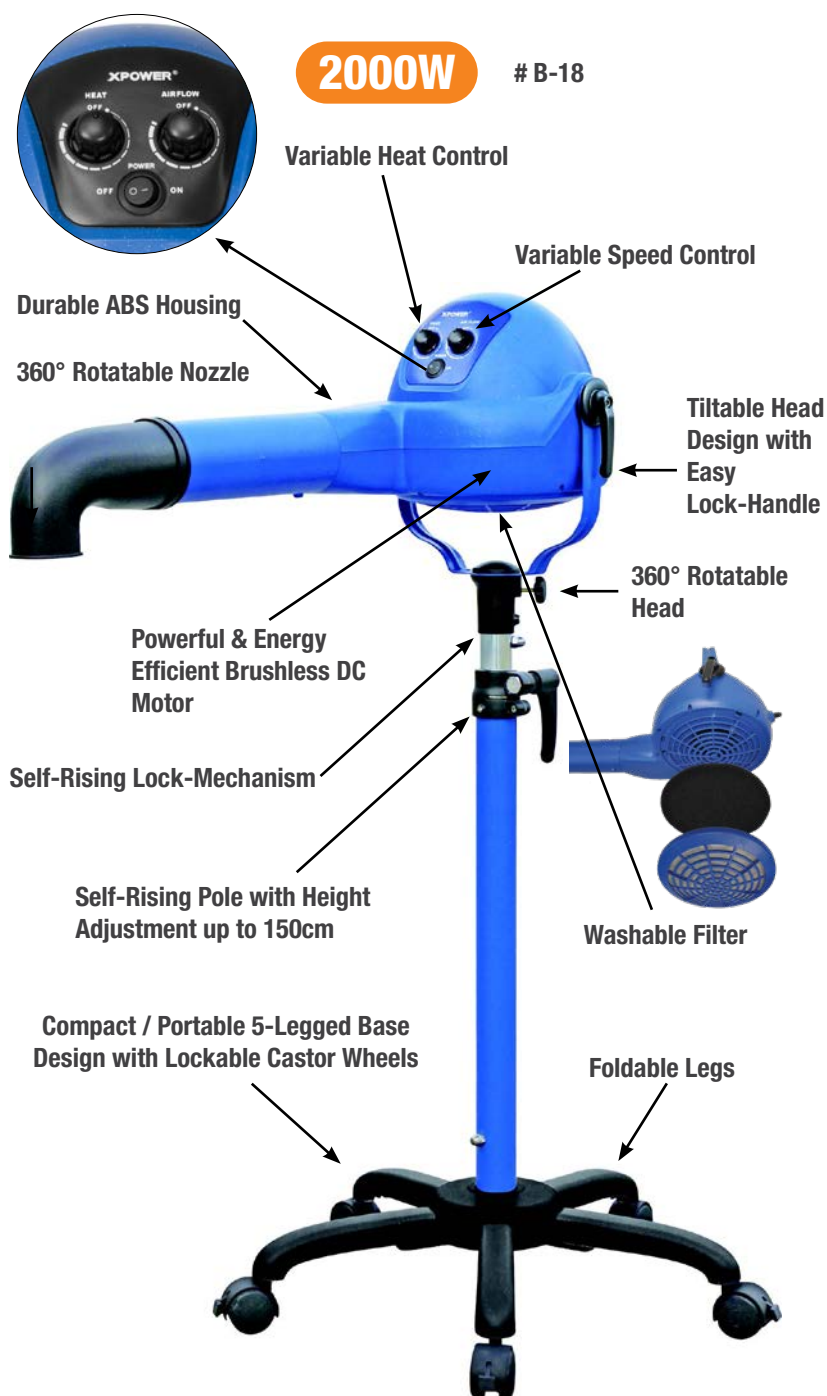

Introducing the new and revolutionary XPOWER Stand Pet Dryer, especially designed to make pet drying easier and faster with its powerful and energy efficient “Brushless DC Motor.” You won’t find a more cost effective, trouble free dryer, anywhere - virtually maintenance free! The XPOWER Stand Pet Dryer creates better grooming and features everything you want in a grooming dryer.

It features a variable heating function, so you can adjust the heat as you need. It also offers unique “Anion” technology producing negative ions that reduces static electricity. The XPOWER Stand Pet Dryer is manufactured with state-of-the-art technology, making it versatile, powerful, durable and very reliable.

Features:

- Whisper QUIET
- Advanced long-life brushless DC motor
- Variable speed control
- Variable heat settings
- “Anion” technology to reduce static
- Tilttable head for different angle positions
- Self-rising adjustment stand
- Thermal protection

Net Weight	8.2 kg
Housing	Durable ABS+PC

Cage Pet Dryer with Multiple Drying Kit

3-Hour Timer & 3 Speeds

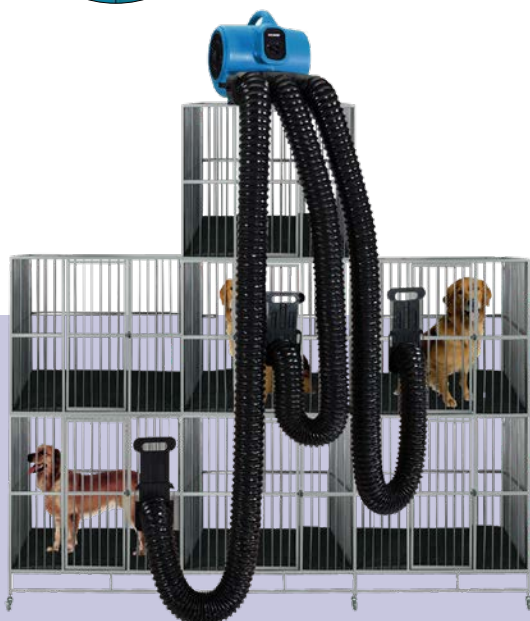

700W

X-800TF-MDK

350W

X-400TF-MDK

The XPOWER X-400TF and X-800TF “Multiple Cage Dryers” are designed for low speed cage drying on small to large breed dogs when temperature heat is desirable. The X-400TF and X-800TF are featured with flexible Multiple Dry Kits (MDK), with 3-speeds as well as a 3-hour timer. They are preferred by groomers who desire multiple cage drying from a single, low speed, quiet, low power usage and high job effectiveness.

The Multiple Dry Kit (MDK) allows airflow to be routed to up to three separate areas simultaneously. It consists of an adapter, three 265cm high-quality flexible vinyl hoses and three control gates. Three separate hoses have adjustable gates to control airflow to each area.

Features:

- Powerful and extra quiet motor
- 3 speeds (Low / Medium / High)
- Durable and rugged injection mould housing
- Provided with filter and unique 3-hour timer
- Rubber feet for multiple drying position stability
- 4-Position usage (0°, 20°, 45°, 90°)

Model	X-400TF-MDK	X-800TF-MDK

X-47ATR Professional Axial Fan

225W

Voltage / Cycles	Power	Amp	Airflow	Rotation
220-240V / 50Hz	225 Watts	1.0 A	2800 CFM	360°
Speed Control	Cord Length	Overheating Protection	Net Weight	Housing
Variable Speed	6.0 m	Thermal	11 kg	Durable ABS

The XPOWER X-47 ATR is the ultimate axial fan – packed with features such as a variable speed control, 3-hour timer, 360-degree rotation rack/stand, and built in daisy chainable power outlets to get a variety of jobs done. A specially designed sealed motor prevents damage from water and other contaminants.

The X-47 efficiently produces up to 2800 CFM airflow with a low 1.0 Amp draw. Use this high performance fan with its unique grille design to extend a powerful and focused stream of air up to 60 ft. in any direction. Easily transportable, this unit's super lightweight yet durable ABS injection molded housing can be stacked up to 5 units high. Ideal for drying floors in an enclosed space; by directing airflow downward, the movement of the air covers the entire floor, walls and ceiling and helps to dry all damp areas, preventing mold and bacteria growth.

Features:

- Sealed induction motor
- Variable speed control switch
- Built-in power outlets for daisy chain feature
- 3-hour timer
- Stackable (up to 5 units high for easy storage)
- Carry handle for easy transportation
- Thermal protection
- 360 rotation-rack stand included
- Super lightweight
- 6 metre power cord length with wrap-around cord design

Daisy Chain feature

X-3400 Heavy-Duty Air Scrubber/Purifier

220W

X-3400

Voltage / Cycles	Power	Amp	Airflow	Filtration
220-240V / 50Hz	220 Watts	1.0 A	650 CFM	3-stage HEPA
Speed Control	Cord Length	Net Weight	Housing	
Variable Speed	4.0 m	13.1 kg	Durable ABS	

The XPOWER X-3400 Professional Air Scrubber is a commercial-grade air purifying system, providing maximum air filtration to promote a healthier environment for all. A portable filtration system that draws air in from the surrounding environment and passes it through a series of filters to remove contaminants such as particles, gases, and/or chemicals. Commonly used on restoration jobs where airborne contaminants are present or will be created/disturbed during the restoration process such as mold, dust and fumes, it can also be adapted for use in a pet grooming environment by capturing pet odours and pet hairs.

Features:

- Variable speed control switch
- 3-stage HEPA filtration
- HEPA filter change indicator light
- HEPA filtration 99.975% efficiency
- Stackable (up to 5 units high for easy storage)
- Carry handle for easy transportation
- 4 metre power cord length
- Wrap-around cord design

Operating Range	Cord Length	Drain Hose Length	Net Weight	Compressor Type
1°C - 35°C	7.5 m	12 m	30.5 kg	High Efficiency Rotary Compressor

To dry efficiently in a grooming salon where moisture constantly migrates from the bathtub. The XPOWER XD-85LH Low Grain Refrigerant (LGR) Dehumidifier is an easy-to-use commercial grade unit which can take up to 60 Liters of water from the air at AHAM per day. The XD-85LH is widely used in the professional water damage restoration industry because of its large water removal capability. With rubber wheels and folding mobility handle, it is easy to move. With an internal water pump, XD-85LH will automatically remove water from its fully loaded water tank. The XD-85LH can lower a grooming shop's relative humidity to 35%, which will significantly decrease pet drying time.

Features:

- Removes over 70 Liters of water per day at max humidity level with auto water purge system
- Super convenient size
- Automatic speed control
- Dual intake technology - boosts efficiency
- Advanced digital control panel monitors your job site's current humidity and records operating time
- Auto purge pump with drainage hose that automatically purges when full, no need to monitor collection tank levels
- Rubber wheels and mobility handle for easy transportation
- Stackable (up to 3 units high for easy storage)
- 7.5 metre power cord length
- Built-in duct and cord wrap design
- 12 metre drain hose length
