

# RENSAIR

Hospital Grade HEPA Air Purifier

**Model: Q01B**

## AIR PURIFIER

THE BEST AIR PURIFIER IN THE WORLD

- Traps and destroys 99.97% of airborne bacteria and viruses
- Hospital Grade HEPA H13 Filtration
- 9,000 hours continuous use before filter change
- Ozone free 18W UVC Lamp
- Purifies 560m3 of air per hour
- Quiet operation from 45dBA
- Independently Laboratory Tested
- User friendly - plug in, set and go
- Portable
- Extreme reliability and low maintenance
- 360° Coverage

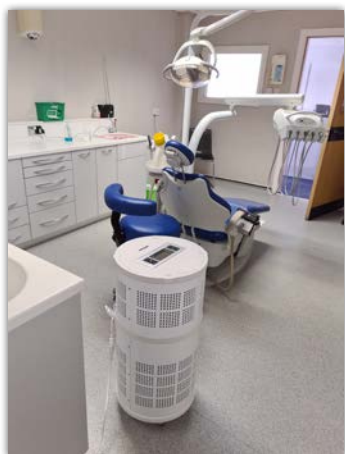

Originally designed for use in European hospitals, the Rensair air purifier stands out above the rest. Not only does it trap 99.97% of airborne pathogens and viruses, but its unique, patented design kills them in seconds giving you complete peace of mind

**USED IN AUSTRALIAN  
HOSPITALS & NURSING HOMES  
INCLUDING EPWORTH HOSPITAL**

Example of use in schools:

Unit operates 10 hours per day, 5 days a week, based on 40 school weeks per year. This means that the HEPA filter and UVC lamp needs to be replaced every 4.5 years. Amazing!
