5 LAYERS of FILTRATION T1v3 BACKPACK

Our Responsibility to the Environment

Recycled Material

The T1v3 Backpack is now made with 30% recycled materials.

New Responsible Packaging

The T1v3's new brown box packaging is made from 70% recycled paper with the remaining 30% being responsibly sourced from Visy's tree plantation in Tumut, NSW.

100% Recyclable

The new box is now 100% recyclable, helping to reduce the amount of waste heading to landfill.

Less Waste

We are using less polystyrene and single use plastics in our packaging.
