

AIR PURIFIER

Our XPOWER X-3400 **Air Purifier** Scrubber is a **COMMERCIAL** grade portable HEPA filtration system that draws air in from the surrounding environment and passes it through a series of filters to remove airborne contaminants.

The 3-stage filtration system with true **99.975% HEPA** captures a wide range of compounds and prevents organism migration from location to location. These compounds includes gases, chemicals, allergens, pollens, bacteria, mould, fumes and dust. The **extra large** air outlet offers high air volume processing for thorough purification

The importance of **air quality** as a **health issue** is of utmost importance during this time.

In addition to masks and vaccinations, **epidemiologists** and **health officials** worldwide are **STRESSING** the importance of the use of HEPA filtered air purification systems during this time as **indoor air** is more contaminated than outdoor.

The X-3400 is used in **environments** such as classrooms, offices, healthcare settings, hotels, quarantine and other commercial areas where there is high density of people in enclosed spaces that may not be able to **social distance**.

HEPA
